

SUBJECT INDEX

- Aflatoxin B₁
in peanut *paçoca* (sweet bar), determination
thin-layer chromatography, 39
in peanut paste, determination
thin-layer chromatography, 39
- Antibodies
anti-peripheral nerve antibodies
in Manson's schistosomiasis, 67
anti-reticulin antibodies
in Manson's schistosomiasis, 63
- Baby foods, analysis
lead, determination, 35
- Cells, cultured
BHK-21 cell
R-type virus-like particle, detection
electron microscopy, 71
- Containers
food container, metallic, analysis, 21
food container, plastic, analysis, 21
- Encephalitis, herpetic
histologic diagnosis, 27
- Food
baby foods, analysis, 35
food containers, analysis, 21
- Herpesvirus hominis*, type 1
isolation from brain and blood, 27
- Influenza
C-type influenza virus
antibodies in human sera
from inhabitants in São Paulo City, 17
- Lead
in baby foods, determination
atomic-absorption spectrophotometry, 35
- Meningitis, pneumococcal
immunodiagnosis, 1
- Mice
white mice
experimental infection with *S. Mansoni*
anti-reticulin antibodies in sera,
frequency, 63
chronic infection with *Toxoplasma gondii*
response to pentetrazol, 59
- Milk, human, analysis
organochlorine pesticide residues, 45
- Nitrate
in fresh vegetables, determination, 53
- Orthomyxovirus infection
C-type influenza virus, 17
- Peanut, *paçoca* (sweet bar)
aflatoxin B₁, determination, 39
- Peanut, paste
aflatoxin B₁ determination, 39
- Pesticides
organochlorine pesticide residues
in milk, detection
electron capture gas-liquid chromatography, 45
- Plastics
for food containers, analysis, 21
- R-type virus-like particle
see virus
- Schistosomiasis
Manson's schistosomiasis, 63, 67
- Streptococcus pneumoniae*
in the spinal fluid
serotype identification
counter-current immunoelectrophoresis, 1
- Toxoplasmosis
white mice chronically infected with *Toxoplasma gondii*
response to pentetrazol, 59
- Vegetables, fresh
nitrate determination, 53
- Virus-like particle
R-type virus-like particle
in BHK-21 cells, detection, 71
ultrastructure, 71
- Yersinia enterocolitica*, serotype 0₃
growth, thermo-resistance in some substrates
pH, temperature, 9
