

SUBJECT INDEX

- Acids, analysis
 erucic acid
 in mustard seed oil, determination, 33
 in prepared mustards, determination, 33
 fatty acids
 in mustard seed oil, determination, 33
 in prepared mustards, determination, 33
- Alanine
 D, L alanine
 in purple granadilla, determination, 9
- Black pepper (*Piper nigrum*)
 fruit, ground, analysis
 frauds detection, 69
- Cadmium traces
 in crustacean, fish, oysters, detection
 atomic absorption spectrophotometry, 15
- Cell
 BHK-21 cell culture
 mumps virus isolation, 81
- Chiroptera
 blood parasitism, 47
- Coffee (roasted and ground)
 frauds
 foreign matters detection, 3
- Cross infection, newborn, 55
- Crustacean
 cadmium detection, 15
- Disease outbreak
 Salmonella paratyphi A
 Tucuruí, Pará, Brazil, 105
- Enterobacteriaceae* infections
 prevalence in São Paulo County, SP, Brazil, 97
- Enterovirus infections
 newborn, occurrence, 55
- Eosinophilia, 85
- Epidemic parotitis virus
 see Mumps virus
- Fatty acids, analysis, 33
- Fish
 cadmium, traces, detection, 15
- Larva migrans, visceral, síndrome, 85
- Marsupialia
 blood parasitism, 47
- Mumps virus
 isolation in BHK-21 cell culture, 81
- Mustard, prepared
 erucic acid determination, 33
 frauds, 33
- Mustard seed oil
 erucic acid determination, 33
- Myxovirus parotitidis
 veja Mumps virus
- Newborn
 cross infection, 55
 enterovirus infection, occurrence, 55
- Nursing bottle
 nipple and accessories
 cadmium, lead, detection, 41
 plastic container
 quality control, 41
- Oysters
 cadmium, traces, detection, 15
- Pacifiers
 cadmium, lead, detection, 41
 quality control, 41
- Papaya (*Carica papaya*)
 seed, analysis, 69
- Parasites
 hemoparasites in wild animals
 São Paulo State, Brazil, 47
- Passion-fruit
 see Purple granadilla
- Pepper
 black pepper (*Piper nigrum*), 69
- Purple granadilla (*Passiflora edulis*), juice
 D, L alanine determination, 9
- Salmonella paratyphi* A
 disease outbreak
 Tucuruí, Pará, Brazil, 105
 lysotyping, 105
- Salmonella typhimurium*
 lactose fermentation, 89
 ortho-nitrophenyl- β -D-galactopiranosid, hydrolysis, 89
- Toxocara canis*, 85
- Triatoma infestans*
 experimental infection by *Trypanosoma cruzi*, 25
 growth, influence of fasting and laboratory temperature, 25
- Trypanosoma cruzi*, 25
- Wild animals
 blood parasitism
 São Paulo State, Brazil, 47
